NOT LOST TO DAYTONA; SANCTION NOT YET GRANTED.

WILL HAS A CHANCE TO LAND BIG BEACH MEET.

**CONTEST BOARD WILL ASIDE BY
REFERENCE EXPRESSED BY
MANUFACTURERS OF RACING**

When for an automobile race
to be held in Jacksonville the
last week in March next, has not
been granted by the American Au-
tomobile Association, in spite of the
efforts of this effect sent out
from Jacksonville, and Daytona yet
showing a good show to get the big
beach meet at that time.

This information is contained in a
telegram from Promoter A. E.
Morgan, who is now in New York
arranging the big automobile show
at Madison Square Garden. Appli-
cations for a sanction for a beach
meet for the four days beginning
March 27 from both Daytona and
Jacksonville are now in the hands
of the contest board of the A. A. A.
and a definite selection will be made
Friday.

The telegram from Promoter
Morgan to President Bond of the
Florida East Coast Automobile As-
sociation said that when he arrived
in New York he found the published
news that a sanction had been
granted for a beach meet at Jack-
sonville the last week in March
erroneous and that no selection has
been made between Jacksonville and
Daytona.

A large number of the manufact-
urers of cars are now in New York
in attendance at the automobile show
and the contest board has decided
to wait until Friday and give the
manufacturers an opportunity to
voice their sentiments as to whether
the meet should be held at Jack-
sonville or Daytona. The preference
of a majority of the manufacturers
will determine at which place the races
will be held.

It has been learned here that at
least two additional entries can be
secured for a meet on Daytona beach
in the Pope-Hartford and the Fiat,
which would not be included among
the entries for a meet in Jack-
sonville, because of fear of the condi-
tion of the beach. Local people be-
lieve the majority of the manufact-
urers will favor a meet on Daytona
beach because a good condition of
the beach can be assured here, while
the condition of the beach at Jack-
sonville is very uncertain.

Strong final efforts will now be
made by President Bond and the lo-
cal committees of bringing the total
amount of subscriptions up to enough
to insure sufficient financial backing
for the meet and the total amount
of money raised will be wired to the
contest board before its decisive
meeting Friday.

By this it will be noted that Day-
tona still has an opportunity to re-
tain its reputation as the real auto-
mobile racing center of the country
and the best possible means of ad-
vertising is not yet entirely lost
to the city. All persons who have not
yet subscribed to the race meet fund
are urged to do so at once so that
the local automobile association can

190 MINERS ENTOMBED; 40 KILLED.

be assured of plenty of financial back-
ing when the final plea for the sanc-
tion for this city is made to the
contest board.

All manufacturers of racing auto-
mobiles are looking forward to
the biggest meet ever held to take
place in Florida next spring and are
making preparations to put cars into
the races which will break all the
world's records established on Day-
tona beach by Barney Oldfield.

MINE DISASTER IN SPAIN; ROOF OF TUNNEL CAVES IN.

**FULL NUMBER OF DEAD IS NOT
KNOWN, BUT WORK OF RES-
CUE IS BEING CARRIED ON
RAPIDLY.**

SANTANDER, Spain, Jan. 10—A
total of 190 workmen have been en-
tombled in the tunnel of the Anita
mine near Castro Urdiales by a
cave in of the roof today.

The total number of dead has not
been ascertained, although it is
known that 40 of the miners have
been killed. The work of rescue is
being pushed as rapidly as possible
in the hope that some of the en-
tombled workmen may still be alive.

ROAD AGENTS REACH STATE FOR MEETING.

TAMPA GETS THE GATHERING OF NATIONAL ASSOCIATION.

**DELEGATES ARRIVE IN JACKSON-
VILLE THIS MORNING AND ARE
ENTERTAINED BY BOARD OF
TRADE.**

JACKSONVILLE, Jan. 10—Several
hundred delegates to the fifteenth
annual meeting of the National As-
sociation of Railway Agents, which
begins in Tampa tomorrow, arrived
in this city this morning and were
immediately taken in charge by the
entertainment committee of the
Jacksonville board of trade.

The delegates were met at the
depot at 8:30 o'clock this morning
by the board of trade committee and
escorted to the board of trade rooms.
Later they were taken aboard the
steamer May Garner and taken for
a cruise up and down the St. Johns
river.

Refreshments were served on the
boat and the delegates given a good
time in every way possible. The ex-
cursion party returned to the city
at 2 o'clock in the afternoon and
the delegates were then taken for an
automobile ride about the city and
otherwise entertained by the com-
mittee. At 9:30 o'clock this evening
the delegates will proceed on their
way to the convention at Tampa.

After the convention closes the de-
legates will go to Miami and be en-
tertained for the day by the board of
trade in that city.

REVOLTERS CAPTURE ISLANDS.

**ALSO HAVE COAST TOWNS;
ARE NOW MOVING ON COIBA.**

**REBELS IN HONDURAS SHOWING
UNEXPECTED STRENGTH IN
SWEEPING ALONG THE EAST
COAST.**

PUERTO BARRIOS, Guatemala,
Jan. 10—The Honduran rebels are
showing unexpected strength in their
campaign along the east coast of
Honduras, and have now secured con-
trol of all the Bay Islands, as well
as most of the minor coast towns.

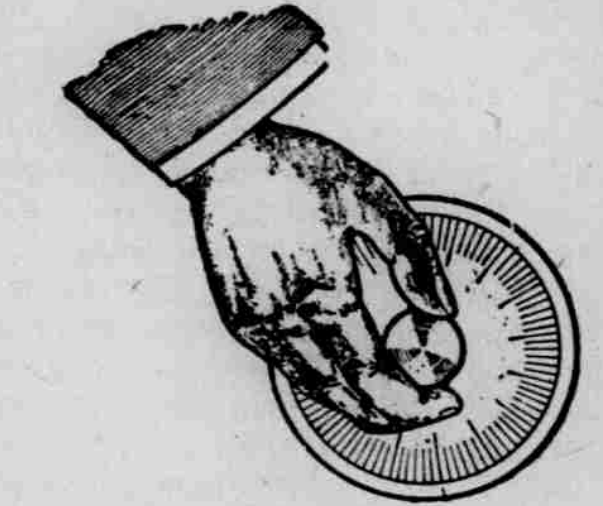

The Revolutionists are now moving
toward Coiba and expect to capture
that place in a short time.

PRESIDENT SCORES SIMS FOR SPEECH IN LONDON.

**SENDS LETTER TO SECRETARY
OF NAVY RECOMMENDING PUB-
LIC REPRIMAND FOR NAVAL
COMMANDER.**

WASHINGTON, Jan. 10—In a let-
ter to the secretary of the navy
President Taft today scores Comman-
der Sims for his "blood is thicker
than water" speech in London last
month.

The president directs that a public
reprimand be given the commander.

The combination of high quality
and reasonable prices to be found
at this store is one that is winning
many new patrons for us.

One trial is all that is necessary
to convince you that our Groceries
are the best obtainable. If you ap-
preciate saving money without sac-
rificing quality, we solicit your pa-
tronage.

CALMLY DIRECTS HER TRIAL.

**MRS. SCHENCK COMPOSED
FACING SERIOUS CHARGE.**

**DIRECTS CROSS EXAMINATION OF
WITNESSES FOR STATE AND
CONDUCTS HER OWN DEFENSE
IN THE TRIAL.**

WHEELING, W. Va., Jan. 10—
Calmly directing the cross examina-
tion of witnesses for the state, Mrs.
Laura Schenck today conducted her
own defense at the trial in which
she is charged with attempting to
poison her millionaire husband.

The woman passed slips of paper
to her counsel, the slips bearing the
questions she wished to ask the wit-
nesses.

The sensation of the day came
when Dr. Ackerman, the family
physician for the past quarter of a
century declared he had found traces
of lead poisoning as well as arsenic,
when he examined John Schenck.

TRAGEDY IN GEORGIA;

PIANO KILLS CHILD.

WAUNESBORO, Ga., Jan. 10—The
home of James Chance was burned
this morning. A piano that had been
removed to the home of a neighbor
tipped over on two children of Wal-
ter Hatcher, killing one and serious-
ly injuring the other. Hatcher is a
rural mail carrier and was out on his
route at the time of the accident.
He remained ignorant of the tragedy
until he returned from his trip late
in the afternoon.

BACK IN 1810.

The first savings bank was founde
in 1810 by Good Doctor Duncan, a
Scotch minister. It was not a suc-
cess at the start. Many people pre-
ferred the clock, the stocking and
the teacup in the cupboard for safety
Nor were they any more foolish than
are many persons in the year 1911,
with all the conveniences of the mod-
ern bank nearby. These same peop-
le are the ones who are usually prej-
udiced against fire insurance, life in-
surance, and the other many modern
means of personal protection.

This bank is an established busi-
ness—a part of the life and business
of this community. It is worthy of
the confidence of the people. Its of-
ficers and directors are men whose
business experience is broad—the
integrity unquestioned.

SMOOTH GAME BY MORGAN; GOBBLED UP THREE BANKS.

17 DROWN IN STORM ON COAST.

BARGES ARE TORN LOOSE AND DRIVEN ON BIG BAR.

**THREE BARGES IN TOW OF TUG
ENROUTE FROM PHILADEL-
PHIA ARE BLOWN AWAY FROM
THE VESSEL.**

PROVINCETOWN, Mass., Jan. 10
—A total of 17 men were drowned
today when three barges, the Cor-
win, the Breverton and the Pine
Forest, in tow of the tug Lykens
from Philadelphia, were swept away
from the vessel in the storm.

The barges were driven on the
Peaked Hill bar and all were
wrecked.

NO-SENATOR YET NAMED BY TENNESSEE REGULARS.

**INDEPENDENTS AND REPUB-
LICANS HAVE CANDIDATES BUT
DEMOCRATS REFUSE TO NOMI-
NATE ONE.**

NASHVILLE, Tenn., Jan. 10—The
regular democrats refused to nomi-
nate a candidate for United States
senator today. The independents
nominated Frazier and Fitzhugh,
while the republicans named Land-
ers.

The result of the first ballot was
Frazier, 15; Fitzhugh, 17; Sanders,
21. The rest of the votes were
scattering.

DO YOU WANT TO VOTE? BETTER PAY POLL TAX.

**SETTLEMENT MUST BE MADE ON
OR BEFORE NEXT SATURDAY
BY EVERY MAN WHO REGIS-
TERS HIS VOTE.**

If you want to vote in the city
election next month and have not yet
paid your 1909 and 1910 poll tax, it
behoves you to get busy and make
settlement on or before next Sat-
urday, or you will not be allowed to
cast your ballot when you march to
the city hall prepared to do your
duty as an American citizen.

The State law requires that the
poll taxes of the two preceding
years must have been paid on or
before the second Saturday of the
month preceding an election before
a voter will be allowed to cast his
ballot, and those who have not yet
paid their poll taxes will be required
to send or take the amount to Tax
Collector D. P. Smith, who is re-
quired to occupy his office in the
county court house at DeLand dur-
ing this month.

MORE COTTON GINNED THIS YEAR THAN LAST.

WASHINGTON, Jan. 10—The cen-
sus bureau cotton report issued to-
day shows that 11,087,442 bales of
cotton have been ginned from the
1910 growth to January 1, against
9,647,327 bales in 1909.

FORCED THEM INTO MESSING WITH HIS TRUST COMPANY.

**HOUSE OF MORGAN DID NOT RE-
PEND A CENT, BUT MESSING
LENT NAME TO AVERT FINAN-
CIAL CRASH.**

NEW YORK, Jan. 10—William
Pierpont Morgan was hailed yester-
day as the savior of three New
York banks, sober reflection by fi-
nancial leaders since then has led
them to renew the appellation of "Fi-
nancial Buccaneer."

It was revealed today that if the
Carnegie Trust Company had been
given 24 hours longer time it would
have been able to continue business.
It is declared that Morgan manipu-
lated so closely as to force the man-
ager of the \$20,000,000 Madison Trust
company with his \$35,000,000 Equi-
table Trust company.

According to reports in financial
circles current today Morgan forced
the hands of his opponents and prac-
tically bagged three banks in an in-
stant, the three being the Madison
Trust company and the Twelfth and
Nineteenth Ward banks.

It is believed an agreement has
been reached that the Carnegie Trust
company will not be reorganized.

It is averred today that the house
of Morgan did not expend a cent,
but merely lent its name to avert
the financial crashes. The money
sent by Morgan & Company to the
banks in question was not needed
and was returned, much of it un-
used.

The three banks opened at the
usual hour this morning and expe-
rienced a light run, which was soon
ended.

Call For Statements—

WASHINGTON, Jan. 10—A call
for a statement of condition of all
national banks at the close of busi-
ness January 7 was issued today by
the comptroller of the currency.

FIRE IN UNION DEPOT YARDS AT CHATTANOOGA.

**CAR SHEDS AND SEVERAL
COACHES DESTROYED BY FIRE
TODAY WITH LOSS OF ABOUT
\$75,000.**

CHATTANOOGA, Tenn., Jan. 10—
The Union depot car sheds and sev-
eral coaches were destroyed by fire
today. The loss will amount to about
\$75,000. Four persons were injured
while fighting the flames.

DR. G. M. WALLACE SUFFERS RELAPSE AT DeLAND.

Dr. Geo. M. Wallace, who went
from this city to DeLand sometime
since and is now at the home of his
daughter, Mrs. G. T. Haynes, in that
city, suffered another stroke of pa-
ralysis yesterday and is reported to
be very low and his death is expect-
ed at any time.

By L. C. DEWARRE.

One of Daytona's crowning glories is her incomparable beach. No one who has ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world beater, a world-wonder. Go stand upon this wide speedway and see the happy souls fit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pelicoid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his blundering load he snatched from the water.

See the beautiful launches, spick and span, with hampers and lockers bulging with refreshments, both solid and liquid, ready for a cruise upon this beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with "hiss" draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryptogamous forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a

LIFE'S PURPOSES.
Life's purposes are the attainment
of personal perfection and to help
in the whole life of the world. Men
are given their lives and the possi-
bility of dying natural deaths only
on condition that they serve the life
of the whole world, whereas the
suicide exploits life as long as it is
agreeable and refuses to serve the
life of the world as soon as it be-
comes unpleasant, ignoring the
likely fact that his service began
only at that moment when his life
became burdensome. Every work
is a life purpose.—Talbot.

fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite—where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruit. Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers and squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and know into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round, you are reminded of Goldsmith's couplet where Smiling spring its earliest visit paid And summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate; another household has a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proficiency and all desirable qualities would truly astonish you. The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbuctoo, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parade and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with a constantly shifting scene.

Everything goes, from a 2-horse power up to a 200-horse power, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

DELAND, FLA.
DELAND, the county seat of Volusia County, is situated 25 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are 1000 students in buildings and equipment; nearly \$200,000 endowment; a Carnegie Library alone representing an investment in building, equipment and stock of more than \$125,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of its buildings, with its furnishings, represents an outlay of \$40,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominant products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that Deland is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute.

From Deland automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from Deland to Orange City, five miles, and a good road from Deland to Lake Helen, a like distance.

LAKE HELEN, FLA.

LAKE HELEN
Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY
The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

Workingmen of Future Must Be Trained Today.

As the Republic advances, the need of the American
 workingman for education is becoming more and more
 apparent.

CONCENTRATION is one of the topics appraised in the
 mind of the American public today, but there is too
 much of a general impression that it is not meeting the situa-
 tion which it demands. In order to the CONCENTRA-
 TION OF THE MIND AND BODIES OF OUR
 AMERICAN YOUTH.

Our school system are giving only a one-sided education. The
 boy may go to school and prepare himself for professional or commercial
 life, but he may drop out of school and never be able to do so. He
 must be prepared to meet a world of work, and he must be prepared to
 meet a world of work, and he must be prepared to meet a world of work.

While the public mind is still in a state of confusion, we must
 have a more complete and up-to-date information of the world's news.

Boat cost \$3,500; is now practically as good as new. Price \$800 cash; no trade. Inquire P. O. box 102, Daytona, Fla. 34-3t

Years Ago Today.
Jan. 10.

Boat withdrawn from the Union. Lieutenant A. J. Glendon, U. S. A., occupied Fort Penna, Penna., with a garrison. Intense excitement throughout the country over the capture of the Star of the West at Charleston. President Buchanan received tenders of troops to protect Washington.

BURNING STUMP HEATS TEEPE

Washington Indians Pleased With Their Economical Ingenuity.

That the char pit process for clearing land is a good thing can be testified to by Sally Frank, a squaw, who with two young bucks pitched her top over a stump under which a char fire had been started, at White Salmon, Wash.

"Heat the stump burn all time him no see out," Sally said. "The purpose was to burn the stump," said the squaw, "an explanation of her selection of the char pit camp ground."

The stumps give little smoke and warm the earth all around. Three other stumps are burning. The other Indians have passed the victims and are proud of their ingenuity.

The Beaver's Tooth.

No carpenter's chisel can do more effective work than is turned out with ease and neatness by the beaver's tooth. This is the principal tool with which these patient, clever builders construct their dams. The outer surface of the tooth is a scale of very hard enamel, while the body of it is of softer dentine. As the softer substance wears away in use the end of the tooth takes a chisel-like bevel, leaving a thin, slightly projecting edge of hard enamel as sharp as any carpenter's tool fresh from the oilstone. The thin scale of enamel gives keenness, the softer dentine supplies strength, and thus the combination forms a formidable tool, which actually sharpens itself by use.

Willing to Be the Goat.

"Why should the spirit of mortal be proud?" quoted the impassioned orator.

Then he paused a moment to let it take effect.

"Well," spoke up a half inebriated man in the audience, "I'll be the goat. Why should it?"—Chicago Tribune.

Peace is not mere tranquillity. for tranquillity may be indifference.—Duffield.

It Died.

Barber (after shave)—Hair dyed, sir? Customer (baldheaded)—Yes; it died about ten years ago.

Workmen of Future Must Be Trained Today.

By SAMUEL COMPTON, President of the American Federation of Labor.

CONSERVATION is one of the topics uppermost in the mind of the American public today, but there is one phase of conservation which is not receiving the attention which it deserves. I refer to the CONSERVATION OF THE BRAIN AND BRAWN OF OUR AMERICAN YOUTH.

Our school systems are giving only a one sided education. The boy may go to school and prepare himself for professional or commercial life or he may drop out of school and enter a trade with no particular preparation and become a mediocre workman. **TRAINING OF BRAIN AND MUSCLE MUST GO TOGETHER FOR THE COMPLETE PREPARATION OF MEN.**

WHILE THE PUBLIC SCHOOLS AND COLLEGES AIM ONLY AT TEACHING PROFESSIONS, THE GREATEST NEED OF AMERICA EDUCATIONALLY IS THE IMPROVEMENT OF INDUSTRIAL INTELLIGENCE AND WORKING EFFICIENCY IN THE AMERICAN YOUTH.

We need an educational uplift for the work of the boy who will work with his hands, and we not only need to give an EDUCATIONAL UPLIFT TO CRAFTSMANSHIP, but the school needs the help of the workman and his better work in education. We should realize better the interdependence between our common education and our common industries.

This can be effected only by a system of industrial schools, differentiated from the manual training schools, which shall ACTUALLY TRAIN WORKMEN FOR THE TRADES and at the same time give them a BROADER MENTAL CULTURE.

Wireless Whispers.

The number of wireless stations on the coasts of the maritime nations of the world is placed at 416.

Wireless communication between the Eiffel tower station and the new world was recently established via Rufisque, a coast town of Senegambia, whence a message was transmitted to Brazil. The answer was received in two hours.

It has been decided to establish wireless telegraph apparatus at Mokpo, Hangmunto and Soehongto, Korea, as well as on board the customs cruiser Kwangche, to report all accidents happening in the waters, besides carrying on the business of the custom house.

Starch.

In 1583 Philip Stubbes inveighed with great energy against the use of starch, which he called "the devil's liquor."

Longitude and Dinner Time.

About 11 o'clock one morning Aunt Dinah was peeling potatoes for dinner. "Now, I reckon that all ober dis big worl' eberybody what's got anything to git a meal with is a-gittin' ready for dinner," she placidly remarked.

"Oh, no, Aunt Dinah," said Miss Nina. "In New York it's just about dinner time now, and out by the Rocky mountains it won't be dinner time for three hours yet."

"Oh, my, Miss Nina! You plumb sure o' that?"

"Plumb sure, Aunt Dinah."

"Well, I's mighty glad I lives in a Christian land whar when it's 'leben o'clock it's 'leben o'clock, and we can't nebbber git mixed up on the dinner time."—Youth's Companion.

Mistaken.

"Little boy, haven't I seen you in my Bible class?" "Not unless I walks in me sleep, lady."—Exchange.

PORT ORANGE

A pretty town, situated south of Daytona, on the Daytona River. Smyrna and the highway of the East Coast. The town is located on the Halifax River, and is connected with the peninsula opposite by a bridge.

The town is well laid out and has many pretty homes. A large number of tourists and winter residents make Port Orange a winter headquarters, one of the several attractions being the excellent fishing.

A short distance west of Port Orange are the remains of the old Dunlawton sugar mill, a place that is visited every year by hundreds of tourists. One time all the country west of Port Orange, surrounding the old mill, was a vast indigo and sugar cane plantation. The mill was operated extensively in those early days but has been in disuse for forty or fifty years.

A very interesting drive from Daytona is by ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through the principal street of Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland.

TO VOTE ON SOFTENING OF WATER.

PEOPLE TO HAVE VOICE ON ADDITION TO PLANT.

COUNCIL DECIDES TO DRAFT ORDINANCE FOR SPECIAL ELECTION ON QUESTION OF SOFTENING OF WATER.

The question of whether a softening plant shall be added to the present city water plant will be submitted to a vote of the people of Daytona at a special election to be called in the near future, according to an action taken at the regular meeting of the city council Monday evening.

The city aldermen are unanimously in favor of the addition of the softening plant, but are confronted with the provision in the city charter which prohibits the council to incur an indebtedness for improvements of this kind without being authorized by the people, and there is no money in the city treasury with which to pay for a softening addition to the water plant.

The demand for a softening of the city water has become so strong that the ordinance committee of the council has been instructed by vote of the council to prepare an ordinance calling for a special election on the question of whether the city shall issue bonds for the purpose of erecting a softening plant. This ordinance will be presented at the next regular meeting of the council, will go through the regular channels and the special election will be called as soon after passage as possible.

If authority is given the council by the people to build the softening plant it will be erected immediately. The new ordinance fixing the salaries of city officers, by which the salary of the mayor is cut off, was not given its third reading at the meeting Monday, but was laid over to the next meeting on request of the ordinance committee.

All of the bids recently submitted for hauling shells from the city shell mounds near Port Orange by water were rejected by vote of the council and the clerk was instructed to advertise for new bids, setting the amount of shells to be used by the city at \$3,000 for each of the next two years.

The city registration list was revised in preparation for the coming city election, February 8th.

City Health Officer E. L. Stewart submitted his report for the month of December, showing two births, five deaths and two cases of contagious diseases. The report declared the sanitary conditions of the city during the year 1910 had been very satisfactory.

A petition from a number of citizens and taxpayers in the city asking that the county be granted the privilege of hauling shells from the city shell mounds for use in repairing the Port Orange road, was read. The matter was referred to the street committee, which reported that arrangements for this had already been made.

Permission was granted J. W. Fulgham to build a dock in front of his business place on Beach street.

A communication was read from E. N. Waldron suggesting that the new ordinance fixing the salaries of city officers should include pay for the members of the city council.

H. H. Hough had a force of men engaged today moving the cottages from the rear of the John Case residence on Volusia avenue to Midway. Mr. Case having sold them to some colored residents of that section of the city.

PERMANENT COMMISSION ON TARIFF.

MEETING OF ASSOCIATION TO BE HELD IN NEW YORK.

DISCUSSIONS BY DELEGATES FROM ALL PARTS OF THE COUNTRY EXPECTED TO HAVE EFFECT ON CONGRESS.

WASHINGTON, Jan. 10 — The movement looking to the creation of a permanent commission that will have charge of all future revisions of the tariff, will be given a decided impetus, when the annual convention of the National Tariff Commission Association opens in this city tomorrow. This organization, which is composed of the strongest and most important commercial bodies in the country has for its sole purpose, the creation of a "permanent non-partisan tariff commission," and it is believed that the assembly at this time of such a body, representing as it does the business interests of the country, will have a powerful effect on congress.

Delegates, appointed by the governors of every state in the union according to the number of congressional districts, will be present, as well as a number of governors themselves, and the mayors, or their representatives of a number of the largest cities. In all it is estimated that there will be between six and seven hundred present, when the first session is called to order at 10:30 o'clock.

Addresses will be made by a number of the foremost statesmen and economists, including President Taft, Senators Cummins and Beveridge, Prof. Henry C. Emery, chairman of the temporary tariff board provided for in the Payne-Aldrich tariff bill.

There is considerable interest manifested in the remarks that President Taft will make at the banquet Thursday evening, which will mark the close of the convention. In his annual message he urges the present tariff board be made permanent, and it is believed that in his remarks he will point out the necessity for quick action. It is known that the president is anxious to have a measure of this kind written on the law books by the present congress. He believes such legislation is ultimately bound to come, and wants a republican congress to enact it and get the credit for it, thereby strengthening the party's chances in 1912. The tariff commission also favors prompt action. From statistics, which they have compiled, it is shown that in twenty-eight states the republican platform for 1910 endorsed the tariff commission principle, and in no state was it opposed.

Jan. 10 In American History.
1800—Collapse of the Pemberton mill at Lawrence, Mass.; 525 operatives killed or wounded.
1863—Lyman Beecher, father of the famous family, died; born 1775.
1893—Benjamin Franklin Butler, soldier and radical statesman, died; born 1818.
1906—Dr. William Rainey Harper, noted Hebrew scholar and president of the University of Chicago, died; born 1856.

Excellent Hunting and Fishing
NEW SMYRNA, FLORIDA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

HEYMANN NOW OUT OF RACE.

NOT CANDIDATE FOR MAYOR;
SOON TO LEAVE THE CITY.

FIRST MAN TO ANNOUNCE CANDIDACY TO SPEND WINTER ELSEWHERE AND CAN'T MAKE CAMPAIGN.

Simon Heymann is making preparations to leave the city and will not be a candidate for mayor at the coming city election. Mr. Heymann will go first to Cuba and then to California and will be gone for several months.

These plans make it impossible for him to continue his campaign to be elected mayor and removes one candidate, leaving five in the race for the office of chief executive of the city of Daytona.

Mr. Heymann was the first man to announce himself a candidate for the office of mayor and for a time gave evidence of making a whirlwind campaign for election. The change in his plans for the winter, however, makes it necessary for him to abandon the hope of being chosen by the voters to issue orders from the big chair in the city hall and he will leave the fight to the other five men who have announced themselves as candidates, who are now in the campaign and none of whom has signified any intention to drop out of the race.

STEPS AHEAD OF DAYTONA WITH A BOARD OF TRADE.

BUSINESS MEN OF NEW SMYRNA SEE BENEFITS OF SUCH A BODY AND FORM PERMANENT ORGANIZATION.

NEW SMYRNA, Jan. 10—Possibly one of the best moves ever made for New Smyrna is the formation of a permanent board of trade by twenty leading business men of our town, whose signatures are all attached to an agreement, promising under the best by-laws that can be procured to do everything possible for the benefit of New Smyrna and its citizens, to attend all its stated meetings, to encourage good will among its members, to secure the support of all good citizens; membership subject only to the consent of the entire board.

BISHOP FOLEY LEAVES; ON WAY TO PHILIPPINES

ST. AUGUSTINE, Jan. 10.—Rt. Rev. Maurice P. Foley, bishop of Tuguegarao, Philippine Islands, has begun his trip to the far off islands, the journey to the final destination to be made gradually. Bishop Foley spent Sunday in Jacksonville and left Sunday evening for Washington, where he will confer with the apostolic delegate and call upon President Taft and other high officials, audiences for which have already been arranged. Bishop Foley will spend some time in New York and then visit his relatives in Boston before starting for San Francisco, from which place he will sail for the Philippines. The trip as planned will consume considerable time, and it will be several months before the bishop reaches his destination and new post at Tuguegarao.

NEWS OF THE HOTELS

Recent arrivals at The Pines hotel are: Alexander Bennell, Morristown, N. J.; R. P. Robbins, Louisville, Ky.; E. L. Walton, Boston, Mass.

The steamer Cherokee made the Tomoka river trip today with quite a large party of excursionists, including some of the guests of the Hotel Clarendon.

Among the recent arrivals at The Gables hotel are: Mr. and Mrs. C. S. Collins and Miss Hazel Collins, Gloversville, N. Y.; Mark Thompson and wife, E. A. Blee and J. H. Grant, Cleveland, Ohio.

Late arrivals at The Gables are: Mr. and Mrs. I. T. Moore, Bar Harbor, Maine; A. M. Draper and wife, Detroit, Mich.; Mrs. A. G. Kline, Miss C. M. Guilford, Mrs. J. F. Sammons, Jackson, Mich.; Mrs. H. L. Henderson, Lansing, Mich.; Mrs. J. B. Davinelle, Mason, Mich.

INTEREST IN VOTING IS SMALL.

ONLY LIGHT VOTE IS CAST
IN SENATORIAL PRIMARY.

ONLY SMALL NUMBER OF VOTERS IN DAYTONA TAKE THE TROUBLE TO GO TO THE POLLS TO VOTE.

Little interest was manifest in the senatorial primary in Daytona today and as a result only a small portion of the voting population took the trouble to go to the polls and cast their votes.

Small efforts have been made during the campaign by any of the candidates to arouse interest in Daytona and as a result only a small portion of the voting population took the trouble to go to the polls and cast their votes.

The result of the primary is difficult to forecast, but from present indications it will result merely in deciding which two of the three candidates will be entered in the second primary. From reports all over the State it seems hardly probable that any one of the three will receive enough votes to give him a majority over the other two, in which case the one receiving the least number of votes will be declared out of the race and the other two will enter the second primary for a final choice.

Reports late this afternoon indicate that a light vote is being cast in every precinct in Volusia county, which would also indicate that a light vote is being polled all over the State.

COBURN'S GREAT MINSTRELS TO BE IN CITY THIS WEEK.

ALWAYS POPULAR COMPANY TO FIND WELCOME AT NEW DAYTONA THEATRE ON THURSDAY AND FRIDAY.

Coburn's Greater Minstrels is the big favorite of all the reliable, enjoyable, real live, laughing shows of the season every season and never disappoints. New faces, old favorites, startling novelties, beautiful costumes, splendid singing, the latest musical numbers and rollicking, screaming comedy without a dull moment makes this company the great big fun show, the most popular and dependable of all the minstrel shows on the road. The singing this year surpasses all former offerings and among the old favorites Ollie Coghlan, the sweet tenor, Harry Morrison, the yodler and robust tenor, Leslie D. Berry, robust baritone, and Robert C. Hockett, basso, provide some of the very best selections and latest ballads, and are singers hard to beat. Lyman Goodman, soprano, is an added attraction with a most pleasing and remarkable voice and personality, and his singing is a feature of the big first part opening, which is entirely new this year and the most beautiful ever carried by this company. A magnificent floral statuary and electrical scenic opening splendidly costumed and elaborately produced. Don't forget the date, January 12th and 13th, at the New Daytona theatre. Parade and band concert at noon.

COMMENT TO GOOD LIVER
IS ERECTED BY FRENCHMEN

[illegible]

The poetry has achieved a sense of its life, and it was only a matter of the measure itself, as often he doing in accordance through changes of meter and language. The "Phenomena of Time" directed the flow of most commented books. It was followed by several poems, each carefully considered in the same manner, but without the same of it, as he considered the nature of the work in connection with the political situation.

It was British literature which directed him. The discovery of a new truth that was the beginning of the history of the literature of the literature of a life.

As a result, the company's earnings are expected to be lower than in the past.

"Iceland," replied the political scientist, "that is a heaven in which I say no such situation is being the outcome that I regard possible for any country."

American Organization Under Way to Influence International Politics.

A new group, the James A. Rogers Foundation, which suggests the formation of a "conservative progressive league" to push forward the "conservative progressive" program of the James A. Rogers Foundation, is to be the first American group to do so. The group, which is organized as a "conservative progressive league," is to be the first American group to do so. The group, which is organized as a "conservative progressive league," is to be the first American group to do so.

[illegible]

It is hardly half a century when the first atomic blast occurred in Gdansk, the city of the Pomeranian Triassic mountains. In his new book on the country, now a quarantined and restless *garden* of civilization in the form of an exotic, damaged landscape, Norbert Pöhl, his author, says: "The Pomeranian, being fond of everything new, scattered his stars and with offensive and noble words of love. He taught them the meaning of freedom that he himself was a person of influence in their midst and the presence of his voice."

...the world looks.—New York Herald.

[illegible]

Four students who were of the opinion that the school was not doing enough to help the students who were in need of financial aid, have been elected to the Student Body. They are: John A. Smith, John B. Jones, John C. Brown, and John D. White. They will be elected to the Student Body for the next year.

The new postal savings bank system provided for by congress at its last session begins operation early in the new year. Owing to the small amount of money appropriated by congress to establish the system only one second class postoffice in each state will be ready to receive deposits for some time.

Under the law the postmaster general, Frank H. Hitchcock, the secretary of the treasury, Franklin MacVeagh, and the attorney general, George W. Wickersham, are made the trustees of the postal savings banks of the United States with power to make rules and regulations to carry out the intent of the law.

For the last seven months various subcommittees of government employees representing the departments of their chiefs have been engaged in

perfecting these rules and regulations. They have made a study of the postal savings bank systems of all foreign countries and have taken from them what they believed to be the best methods applicable to the United States system.

Deposits of \$1 Permitted.

Any person of the age of ten years or over, in his or her own name, and any married woman, in her own name, may deposit in the postal savings bank of their home town any sum from \$1 to \$100, which is the limit of deposit for any one person in any one month. In the event that they do not desire or are not able to deposit \$1 or more they may purchase postal savings bank stamps for 10 cents, ten of which, or stamps supplemented by sufficient cash, will enable them to open an account with the required initial deposit of \$1. Depositors will receive interest at the rate of 2 per cent per annum. All deposits are withdrawable upon demand, together with accrued interest.

When the deposits reach the sums of \$20, \$40, \$60, \$80, \$100 and multiples thereof up to \$500 they may be exchanged, upon request, for United States bonds of like denomination which shall bear interest at the rate of 2 1/2 per cent per annum, payable semiannually, and be redeemable at the treasury of the United States one year from the date of their issue and payable twenty years from such date, both principal and interest being payable in United States gold coin. These bonds are exempt from taxes or duties of any kind.

Deposits Are Safeguarded.

Every safeguard has been thrown around the postal savings bank deposits that exist today for the safe keeping and proper accounting for postal receipts. Likewise the laws relating to the protection of public money and all statutes relating to embezzlement, conversion, improper handling, retention, use or disposal of postal and money order funds and the punishment provided for such offenses are made applicable to the postal savings depository funds.

In making a selection of original offices for the beginning of the postal savings bank system in this country the trustees undertook to choose cities where the new system might receive a thorough test. With that end in view, the list includes state capitals, mining towns, agricultural centers, manufacturing cities and cities of large native and of foreign population.

The Family Jar.

Mrs. Gnaggs—So you admit that you have at times lied to me? Mr. Gnaggs—Frequently. Mrs. Gnaggs—Monster! Mr. Gnaggs—Yes, when I used to tell you you were the sweetest little woman in the world.—Philadelphia Record.

Slam's New King Will Establish Schools Like Those In America

King Chowfa of Siam, who has been on the throne only a few weeks, is reported to have taken steps to establish schools in his country that will offer to all his young subjects a chance to get an education. He intends to develop a system of schools modeled on that of the United States, which he studied closely when he visited this country a few years ago, when he was the crown prince. The king himself is a graduate of England's famous Oxford university. He speaks several languages fluently, has written books and plays and is altogether progressive. When he was but a boy he saw a typewriter for the first time, and he immediately ordered one. He became an expert operator and, if necessary, could earn his living running the machine. At his suggestion the manufacturers made typewriters with Siamese characters, and they were soon in general use in Bangkok and other Siamese cities. King Chowfa is twenty-nine years old. He is a close student of military affairs and is familiar with the tactics and systems in vogue in England and Germany. His father, the late King Chulalongkorn, was more progressive than his predecessors and paved the way for the reforms that his son is expected to introduce.

NEW SHOW EVERY HOUR

Adolph M. Jaehde, of Leesburg, arrived Monday for his annual sojourn in Daytona and is stopping at The Seminole.

*1911 Allen Kingston for sale cheap; up-to-date and fast, reason for selling am going abroad. E. D. W. ROSE. Tu-Th tf

C. L. Waring, accompanied by Dr. Andrew V. Jova and Miss Margaret C. McCloy, a trained nurse, of Newburgh, N. Y., are stopping at the Ivy Lane Inn for the winter. Mr. Waring, who has been ill for sometime, is one of Newburgh's prominent lawyers.

Michael F. Benedum and family arrived from Pittsburg, Pa., Monday and are occupying the Geo. E. Sebring residence on South Ridgewood avenue, which they have taken in preference to Mrs. D. A. Blodgett's house, originally rented to Mr. Benedum by Messrs. Edmondson & Donnelly, who also negotiated the latter rental.

*For sale at a reduction two first class tickets Jacksonville to Baltimore via Merchants & Miners C. S. Co. Enquire at this office. 34-t

Owing to the usually large enrollment of 66 in the first grade of the public schools the board of trustees has arranged a temporary division of the grade into two sections. The first division, or class A, will be given a morning session from 8:30 to 11:30 o'clock, while the lower section, or class B, will be given only an afternoon session from 1 o'clock until 3.

*LAKE IDA POULTRY FARM—F. C. Rhode Island Reds; eggs for hatching from hens bred for winter laying. Capt. C. T. Brown & Son, Delray, Fla. 33-6t

Mr. and Mrs. G. L. Gandy, daughter and son, arrived Monday afternoon from Mt. Auburn, Ill., and are located at Edmund Miller's, corner of Palmetto avenue and Cedar street. They will spend the season in Daytona. Mr. Gandy was in the city for a short time last winter and was so pleased with the city and vicinity that he has this season brought his family to enjoy it with him.

*Adolph M. Jaehde, piano tuner, is at the Seminole Hotel during the month of January, where orders may be left. 34-3t

CRUISING YACHT ALICE R. HERE ON MAIDEN TRIP.

BUILT AT ST. AUGUSTINE AND
ONLY JUST COMPLETED NEW
BOAT CRUISING SOUTH WITH
OWNER AND FAMILY.

The Alice R., a new yacht just completed at St. Augustine arrived here Sunday and tied up at the Halifax River Yacht Club wharf for a few days on her way to Palm Beach and Miami.

Aboard the Alice R is the owner, J. F. Ross, accompanied by his wife and his mother, Mrs. M. M. Hill. The party are from York, Pa., but Mr. Ross and his mother were originally from Frankfort, Ind., and have a number of friends in this city among the Frankfort contingent here.

Mr. Ross says they had intended spending a month in Daytona but their boat was not completed on contract time which delayed them several weeks so they will continue their trip south and stop over on their return. Mr. Ross thinks Daytona too pretty a place to pass through without stopping for a time, he says.

The Alice R is 40 feet in length by 13 foot beam and has for power a 25 horsepower Sterling engine. She is much more roomy than appears from the exterior and is very comfortably fitted up, every foot of space being used to advantage.

**WANTED—Position as nurse and companion by gentleman of health and experience. C. W. Olendorf, Box 337, Daytona. 33-6t

LEFT NEBRASKA BLIZZARD:
NOW ENJOYING SUNSHINE.

W. O. Forbes and wife, of Lincoln, Neb., stopped over here Monday for a short stay before continuing their journey to Miami and Cuba, but will visit here again on their way north. Mr. Forbes is an uncle of W. C. Branch, proprietor of The Willmer, and himself and wife are with Mr. and Mrs. Branch at that hostelry. Mr. Forbes visited Daytona for a short time last winter and was delighted with the city. It is particularly attractive just now from the fact that when Mr. and Mrs. Forbes left Lincoln a blizzard was prevailing and the temperature was 16 degrees below zero.

*LOST—Round commutator door for Buick car. Please return to Geo. F. Smith, 43 N. Ridgewood.

MONEY IS DEPOSITED

BY THE SUGAR COMPANY.

WASHINGTON, Jan. 10—The American Sugar Refining company has deposited \$700,000 in cash in the federal treasury to compromise its civil suit liabilities in the sugar drawback frauds in New York.

PROCESS OF SOFTENING PURIFIES THE WATER.

THE FOLLOWING EXTRACT FROM
THE COLUMBUS, OHIO, SUNDAY DISPATCH IS HIGH ENDORSEMENT OF SOFT WATER.

One of the very best things you can drink during the new year is the city's water, in the opinion of the city health department experts.

You can drink it just as it comes from the pipes and be sure that it is safe and pure, they say. If you have been in the habit of boiling it as a precautionary measure, you may now safely cease and trust to the people who make the water what it is, is the general verdict of the health department.

During all of the year which has just closed the city water has been absolutely pure. City experts examined it minutely 368 times, and did not once find any trace of impurity. Wherefore the faith imposed in the hydrant water. Colon bacilli, which indicate danger of the presence of typhoid fever germs, are now a thing of the past, so far as the hydrant water is concerned.

There is danger, however, in the use of well water that has not been tested. During the year the city chemists found such impurities in 104 wells that they condemned that number. It is thought that some typhoid fever was due to this agency.

Ravages of typhoid during the year were so reduced, mainly through pure water, that only 20 deaths from the disease occurred in the city during the year.

The city of Columbus put in a water softening plant about a year ago and the foregoing article was written in testimony of the excellent water obtained thereby. What is good for Columbus, Ohio, should be good for Daytona, Florida, so far as pure, soft water is concerned.

HUNTING HERE EXCELLENT SAYS J. H. DONNELLY.

TRIED IT FOR HIMSELF LAST
SATURDAY AND ENJOYED A
GOOD DAY'S SPORT.

J. H. Donnelly, of the real estate firm of Edmondson & Donnelly, determined to see for himself what the hunting amounted to in this section, so last Saturday he engaged that well known hunter and guide, James Bennett, and sallied forth in the early morning, striking out along the DeLand road and making out into the country north of it.

They returned in the afternoon with two rabbits, a fox squirrel and a baker's dozen of quail and Mr. Donnelly says that if anyone fails to return without game in this country it must be because he does not know how to handle a gun. The flatwoods country he found was well adapted for shooting, being grass covered and generally open and free from brush and heavy timber.

Mr. Donnelly presented John Kolle of Second avenue with the fox squirrel and Mr. Kolle will have it mounted and add it to his collection, as it is a very fine specimen.

They did not find the birds until sometime in the afternoon, or the score would have been larger, but as it is Mr. Donnelly was well pleased with the day's sport.
